

YouTube Videos – Please turn on **SAFE MODE** in YouTube – I’ve previewed all these links, however, it is always wise to turn on safemode when kids are online. At the bottom of any link in YouTube, Go to **Safety**, change to **ON**, then **LOCK**. You may also have to **remove any ads** that pop up...be sure to click directly on the small X in the upper right corner of the ad to remove it. Some of these videos are narrated, others have background music. While most of the background music is calm, peaceful...some have louder tunes so you may need to adjust the volume or turn it off.
